

# GOKUL PRIYAN P

Frontend Developer | React.js | JavaScript | Full Stack Development

Email: gokultgb475@gmail.com | Phone: +91 94893 92449 | Location: Madurai, Tamil Nadu

LinkedIn: linkedin.com/in/gokulpriyanp | GitHub: github.com/gokultgb475-lgtm | Portfolio: fish-corporation-live.onrender.com

## PROFESSIONAL SUMMARY

Self-driven **Frontend Developer** and Diploma CSE student with proven experience independently building and deploying production-grade web applications using **React.js, JavaScript (ES6+), HTML5, and CSS3**. Delivered a live commercial client website as a solo developer; built AI-integrated and IoT platforms across agri-tech and smart infrastructure domains. Entrepreneurship-trained at TCE TBI. Seeking **Frontend, React Developer, or Junior Full Stack roles** at startups or product-based companies where ownership mindset and real project delivery are valued.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), Python, Java (Fundamentals) **Frontend:** React.js, HTML5, CSS3, Responsive Design, UI/UX  
**Backend:** Node.js, REST APIs, Express.js (Basic) **Databases:** MySQL, MongoDB  
**Tools:** Git, GitHub, VS Code, Figma, Chrome DevTools, Postman **Concepts:** Component Architecture, a11y, Agile, Linux & Shell

## CORE COMPETENCIES

Independent Ownership · Problem Solving & Debugging · Client Communication · Team Collaboration · Adaptability · Entrepreneurial Thinking

## PROJECTS & EXPERIENCE

### Fish Corporation Website — Live Client Delivery Jan – Mar 2025

Solo Frontend Developer | React.js · HTML5 · CSS3 · Node.js · Git · Render | Live: fish-corporation-live.onrender.com

- Independently architected, developed, and deployed a fully responsive commercial website — managed complete SDLC from wireframe to live production with zero supervision.
- Implemented mobile-first layouts with 100% cross-device compatibility; configured deployment pipeline on Render with post-launch maintenance.
- Impact:** Solo end-to-end client delivery; production-ready website shipped on deadline with full responsive coverage across all screen sizes.

### Uzhavar Bridge — AI-Powered Farmer-to-Buyer Platform Mar – Jun 2025

Frontend Developer | React.js · Python · REST APIs · MySQL · CSS3

- Engineered the full frontend of an AI-driven agriculture platform eliminating middlemen by enabling direct digital farmer-buyer trade.
- Built UI modules for crop recommendation, price prediction, and live weather data; applied accessibility-first (a11y) design for rural, low-literacy users.
- Impact:** Digitised farmer-buyer connectivity; simplified UI increased platform viability for non-technical rural communities.

### Student Attendance Management System — Backend Automation 2025

Backend Developer | Python · MySQL · Shell Scripting

- Built automated attendance tracking with structured database workflows, validation logic, and one-click report generation — reducing manual administrative effort by ~70%.
- Impact:** Eliminated manual data entry; improved record accuracy and audit-readiness for academic administration.

### LumiNet — IoT Smart Urban Lighting System 2025 – 2026

Project Contributor & EDP Trainee | Forge Innovation & Ventures TBI, Madurai | IoT · Business Planning

- Collaborated cross-functionally at TCE TBI to validate an IoT-based smart lighting concept; authored a 13-chapter report covering business model, market feasibility, and 3-year financial projections.
- Impact:** Completed full TBI incubation cycle; developed pitch presentation and business validation skills in a startup environment.

## EDUCATION

**Diploma in Computer Science Engineering (CSE)** — Tamil Nadu Govt. Polytechnic College (Autonomous), Madurai Expected 2026

**Higher Secondary Certificate (HSC)** — Hindu Nadar Uruvin Murai Committee HSS, Madurai 2023 | 86%

## CERTIFICATIONS & TRAINING

- Entrepreneurship Development Programme (EDP)** — Forge Innovation & Ventures TBI (TCE TBI), Madurai | 2025–2026
- Self-directed learning: React.js, JavaScript ES6+, REST API Design, UI/UX Principles, Git & GitHub workflows

## ACHIEVEMENTS & ACCOMPLISHMENTS

- Independently built and deployed a **live commercial client website** — solo full-cycle delivery from design to production
- Selected for **TCE TBI Entrepreneurship Development Programme** — premier startup incubator, Madurai
- Delivered **4+ production-grade projects** across agri-tech, smart infrastructure, and education within one academic year
- Built AI-integrated platform addressing **real-world digital inclusion challenges** for rural farming communities in Tamil Nadu

## LANGUAGES

**Tamil** — Native / Full Professional Proficiency (Read, Write, Speak) **English** — Full Professional Proficiency (Read, Write, Speak)
